TOTAL DRY VOTE IN THE COUNTY	7591
TOTAL WET VOTE IN THE COUNTY	6846
DRY MAJORITY	745

Thirty days and the saloons in Newark will be no more, for Licking county went dry in spite of the fact that the city registered objections to the tune of 1557 majority for the wets. The die has been cast, and Newark is to be, for three years, at least, a town of no saloons.

From early in the evening, about 7:30, the victory of the dry faction was conceded, when it became evident that the wet majority in the city could not overcome the dry vote from the outside precincts. The first precinct to be heard from was Fallsburg, which reported at shortly before 7 o'clock, giving a wet majority of 23, out of a total vote of 158. The final reports were from Madison and McKean townships, about 8:45 o'clock.

The city began reporting about 7 o'clock and was all heard from by 8:15; the wets getting a majority of 1557 votes, or about 600 votes less than had been estimated as required by the wets in the city to overcome the dries in the county outside. Three precincts were numbered among the dries: C. of the First ward, by 9; C. of the Third, by 18, and B. of the Fourth, by 3 votes, while one of the county precincts outside of Newark, gave the wets a majority. Fallsburg went wet by a majority of 22. The dry majority in the 37 precincts outside of the city reached just 2324, the dry vote amounting to 5151, and the wets securing 2849. In the city the dry vote amounted to a total of 2410 and the wets 3997.

The total vote cast in the county was 14,437, in other words, just 240 votes less than the county cast at the presidential election last month.

Great Demonstration.
Great excitement prevailed throughout the city when, after the early supper hour, crowds began to line the streets about the public square. The greatest crowd collected in front of the Advocate office, where bulletins were posted every few seconds, as the various precincts reported. The crowd increased as the evening passed, until at one time it was estimated that fully 2000 people blocked the street in front of this office. A special squad of police officers were detailed to keep the crowds off the car tracks, and to make room for traffic through the streets. As fresh bulletins were posted the sea of faces was observed to sway to and fro, eagerly reading the latest reports of victory for one faction and defeat for the other in the various precincts.

It was easy to see that the majority of the crowd watching the Advocate bulletin window had the interest of the wets at heart, for with every bulletin favoring that faction, the crowd of citizens expressed gratification with great shouts and waving of hats and hands. These demonstrations alone, before the city had fully reported, were taken to mean that the wet vote would prevail in the city by a good majority. The Advocate's reports, coming in from the special correspondents all over the county, from the Independent and B. I. D. telephone offices, and from special operators on duty, and from the election officers of the various precincts, were received in rapid form and immediately given to the eager and excited crowd of hundreds of surging spectators, testifying loudly to the general public in-

was cast at the presidential election, when 422 votes were polled. At an early hour Monday afternoon it became apparent that an unusually large vote would be polled and exertions were made on the part of the opposing forces to get out the vote. The campaign lasted for several weeks and was of the most strenuous kind, the presidential election not being in it for the amount of excitement created, and during the last week of the campaign much personal work was done, especially on the part of the women and the ministers of the various churches. Monday prayer meetings were held every hour at the Baptist church and the ladies served lunch at the Presbyterian church all day and the bells were tolled every hour. When the official returns were received about 9 o'clock, announcing that the county had voted dry by a margin of 745, the greatest excitement prevailed. People fairly went wild.

WINS SUIT INVOLVING MILLIONS

After Long Litigation Court Decides in Favor of Mrs. Maybrick

LAND DEEDS SET ASIDE

Case Has Attracted Attention All Over the Country—Expected Appeal Will be Taken.

Richmond, Va., Dec. 8.—The case of Mrs. Florence Maybrick and her mother, Baroness von Roque, of New York, involving title to land said to be worth about \$2,500,000, was decided in their favor in the chancery court here.

Under the decree, deeds conveying 2,500,000 acres of land in Kentucky, Maryland, Virginia and West Virginia to D. W. Armstrong, of New York, former counsel for Mrs. Maybrick and her mother, are set aside and Armstrong is ordered to give an accounting of all lands and moneys handled by him while attorney for them.

They inherited the land from the first husband of the baroness. They employed Armstrong as their attorney to secure deed to the enormous tracts of land shortly after the death of Mrs. Maybrick's husband, for which she served a term in the British prisons, her imprisonment furnishing a famous international episode.

Attorney Armstrong, they charged, sold one tract of land to a company in Kentucky for \$85,000, after which he is said to have represented the whole property, comprising 2,500,000 acres, was worth only \$10,000, and bought it himself at that price, after receiving \$85,000 for a single tract, which was only one-thirtieth of the whole property.

The suit has been pending over 10 years. Attorney Samuel V. Hayden, attorney for Mrs. Maybrick and the baroness, claimed that the deed was invalid because Mrs. Maybrick was in such a frame of mind as to make her irresponsible when the deed was executed.

The case has attracted attention in two continents. Testimony has been taken in France, England, Virginia, the District of Columbia, West Virginia, Ohio, Pennsylvania, Massachusetts and New York.

It is expected an appeal will be taken, and that finally the supreme court of the United States will pass on the title to the fortune.

TOO EARLY TO SHOW DELIGHT.

New Orleans, Dec. 8.—Mrs. Florence Maybrick, who is in New Orleans, was told of the decision of the Richmond, Va., chancery court in her favor. Mrs. Maybrick expressed her gratification, but said she presumed the case would be appealed and it might be a little too early to indulge in expressions of delight.

PRESIDENT'S MESSAGE IS READ TODAY

Washington, Dec. 8.—In his message to congress, read to the two houses, the president said:

The financial standing of the nation at the present time is excellent, and the financial management of the nation's interests by the government during the last seven years has shown the most satisfactory results. But our currency system is imperfect, and it is earnestly to be hoped that the currency commission will be able to propose a thoroughly good system which will do away with the existing defects. During the period from July 1, 1901, to Sept. 30, 1908, there has been a net surplus of nearly one hundred millions of receipts over expenditures, a reduction of the interest bearing debt by ninety millions, in spite of the extraordinary expense of the Panama canal and a saving of nearly nine millions on the annual interest charge. This is an exceedingly satisfactory showing. There has been a reduction of taxation.

Corporations.

As regards the great corporations engaged in interstate business, and especially the railroads, I can only repeat what I have already again and again said in my messages to the congress. I believe that under the interstate clause of the constitution the United States has complete and paramount right to control all agencies of interstate commerce, and I believe that the national government alone can exercise this right with wisdom and effectiveness so as both to secure justice from and to do justice to the great corporations which are the most important factors in modern business. I believe that it is worse than folly to attempt to prohibit all combinations, as is done by the Sherman anti-trust law, because such a law can be enforced only imperfectly and unequally, and its enforcement works almost as much hardship as good. I strongly advocate that instead of an unwise effort to prohibit all combinations there shall be substituted a law which shall expressly permit combinations which are in the interest of the public, but shall at the same time give to some agency of the national government full power of control and supervision over them. One of the chief features of this control should be securing entire publicity in all matters which the public has a right to know and, furthermore, the power, not by judicial, but by executive, action to prevent or put a stop to every form of improper favoritism or other wrongdoing.

The railroads of the country should be put completely under the interstate commerce commission and removed from the domain of the anti-trust law. The power of the commission should be made thoroughgoing, so that it could exercise complete supervision and control over the issue of securities as well as over the raising and lowering of rates. As regards rates, at least this power should be summary. Power to make combinations and traffic agreements should be explicitly conferred upon the railroads, the permission of the commission being first gained and the combination or agreement being published in all its details. The interests of the shareholders, of the employees and of the shippers should all be guarded as against one another. To give any one of them undue and improper consideration is to do injustice to the others. Rates must be made as low as is compatible with giving proper returns to all the employees of the railroad, from the highest to the lowest, and proper returns to the shareholders, but they must not, for instance, be reduced in such fashion as to necessitate a cut in the wages of the employees or the abolition of the proper and legitimate profits of honest shareholders.

Telegraph and telephone companies engaged in interstate business should be put under the jurisdiction of the interstate commerce commission.

Ample Rewards for Intelligence.

It is to the interest of all of us that there should be a premium put upon individual initiative and individual capacity and an ample reward for the great directing intelligences alone competent to manage the great business operations of today. It is well to keep in mind that exactly as the anarchist is the worst enemy of liberty and the reactionary the worst enemy of order so the men who defend the rights of property have most to fear from the wrongdoers of great wealth, and the men who are championing popular rights have most to fear from the demagogues who in the name of popular rights would do wrong to and oppress honest business men, honest men of wealth, for the success of either type of wrongdoer necessarily invites a violent reaction against the cause the wrongdoer nominally upholds.

The opposition to government control of these great corporations makes

Bonds of Company Were Sold to Representatives of Catholic Church.

New York, Dec. 8.—That the affairs of the Fidelity Funding company, which was organized under the laws of this state in 1899 to finance the building operations of Catholic churches and allied institutions, and which went into the hands of a receiver a few weeks ago, are in an exceedingly tangled condition, is asserted by the receiver, Thomas F. Gilroy, Jr.

According to Receiver Gilroy, the company's liabilities will aggregate not less than \$4,500,000, with practically no assets. Its creditors include at least 50 churches, seminaries, colleges and many priests and nuns. These are located all over the country, from the New England States to Oregon. Chief among the company's creditors is St. Mary's academy of Nauvoo, Ill., which is involved for at least \$500,000.

A VALUABLE FOOD.

"Sealships" Oysters are particularly rich in food values—nutritious but light and easily digested. One can eat heartily of them without discomfort. They can be prepared in scores of different ways, all equally tempting. They are acceptable as a single course or as an entire meal. Eaten for lunch, dinner or supper, they are always appetizing and delicious.

To appreciate the real flavor and quality of the oyster it must be fresh. This is one reason for "Sealships" Oysters. "Sealships" Oysters must be fresh, because they are packed in sealed airtight containers, with ice around the containers. No water touches the oysters. You get the natural oyster, whole and perfect. We sell "Sealships" Oysters—only the best—packed in a white paper container, bearing the blue "Sealships" trademark. J. M. Browne & Son, C. L. Courd.

PRESIDENT'S MESSAGE

(Continued from Page 1.)

its most effective effort in the shape of an appeal to the old doctrine of states' rights.

The proposal to make the national government supreme over, and therefore to give it complete control over, the railroads and other instruments of interstate commerce is merely a proposal to carry out to the letter one of the prime purposes, if not the prime purpose, for which the constitution was founded. It does not represent centralization.

I believe that the more farsighted corporations are themselves coming to recognize the unwisdom of the violent hostility they have displayed during the last few years to regulation and control by the national government of combinations engaged in interstate business.

Labor.

There are many matters affecting labor and the status of the wageworker to which I should like to draw your attention. As far as possible I hope to see a frank recognition of the advantages conferred by machinery, organization and division of labor, accompanied by an effort to bring about a larger share in the ownership by wageworker of railway, mill and factory. In farming this simply means that we wish to see the farmer own his own land. We do not wish to see the farms so large that they become the property of absentee landlords who farm them by tenants nor yet so small that the farmer becomes like a European peasant.

The depositors in our savings banks now number over one-tenth of our entire population. These are all capitalists who through the savings banks loan their money to the workers—that is, in many cases to themselves—to carry on their various industries. Postal savings banks will make it easy for the poorest to keep their savings in absolute safety. The regulation of the national highways must be such that they shall serve all people with equal justice. Corporate finances must be supervised so as to make it far safer than at present for the man of small means to invest his money in stocks. There must be prohibition of child labor, diminution of woman labor, shortening of hours of all mechanical labor. Stock watering should be prohibited, and stock gambling, so far as is possible, discouraged. There should be a progressive inheritance tax on large fortunes. Industrial education should be encouraged.

Protection for Wageworkers.

There is one matter with which the congress should deal at this session. There should no longer be any paltering with the question of taking care of the wageworkers who, under our present industrial system, become killed, crippled or worn out as part of the regular incidents of a given business. The object sought for could be achieved to a measurable degree, as far as those killed or crippled are concerned, by proper employees' liability laws. As far as concerns those who have been worn out, I call your attention to the fact that definite steps toward providing old age pensions have been taken in many of our private industries.

Pending a thoroughgoing investigation and action there is certain legislation which should be enacted at once. The law passed at the last session of the congress granting compensation to certain classes of employees of the government should be extended to include all employees of the government and should be made more liberal in its terms. In this respect the generosity of the United States toward its employees compares most unfavorably with that of every country in Europe—even the poorest.

The terms of the act are also a hardship in prohibiting payment in cases where the accident is in any way due to the negligence of the employee. It is inevitable that daily familiarity with danger will lead men to take chances that can be construed into negligence.

I renew my recommendation made in a previous message that half holidays be granted during the summer to all wageworkers in government employ.

I also renew my recommendation that the principle of the eight hour day should as rapidly and as far as practicable be extended to the entire work being carried on by the government.

The Courts.

I most earnestly urge upon the congress the duty of increasing the totally inadequate salaries now given to our judges. On the whole, there is no body of public servants who do as valuable work nor whose moneyed reward is so inadequate compared to their work. Beginning with the supreme court, the judges should have their salaries doubled.

It is earnestly to be desired that some method should be devised for doing away with the long delays which now obtain in the administration of

justice and which operate with peculiar severity against persons of small means and favor only the very criminals whom it is most desirable to punish.

At the last election certain leaders of organized labor made a violent and sweeping attack upon the entire judiciary of the country, an attack pitched in such terms as to include the most upright, honest and broad minded judges no less than those of narrower mind and more restricted outlook. Last year before the house committee on the judiciary these same labor leaders formulated their demands, specifying the bill that contained them, refusing all compromise, stating they wished the principle of that bill or nothing. They insisted on a provision that in a labor dispute no injunction should issue except to protect a property right and specifically provided that the right to carry on business should not be construed as a property right, and in a second provision their bill made legal in a labor dispute any act or agreement by or between two or more persons that would not have been unlawful if done by a single person. In other words, this bill legalized blacklisting and boycotting in every form. The demand was made that there should be trial by jury in contempt cases, thereby most seriously impairing the authority of the courts. All this represented a course of policy which, if carried out, would mean the enthronement of class privilege in its crudest and most brutal form and the destruction of one of the most essential functions of the judiciary in all civilized lands.

The wageworkers, the workmen, the laboring men of the country, by the way in which they repudiated the effort to get them to cast their votes in response to an appeal to class hatred have emphasized their sound patriotism and Americanism.

Courts Imperiled by Judges.

But the extreme reactionaries, the persons who blind themselves to the wrongs now and then committed by the courts on laboring men, should also think seriously as to what such a movement as this portends. The courts are jeopardized primarily by the action of these federal and state judges who show inability or unwillingness to put a stop to the wrongdoing of very rich men under modern industrial conditions.

There are certain decisions by various courts which have been exceedingly detrimental to the rights of wageworkers. This is true of all the decisions that decide that men and women are by the constitution "guaranteed their liberty" to contract to enter a dangerous occupation, or to work an undesirable or improper number of hours, or to work in unhealthy surroundings, and therefore cannot recover damages when maimed in that occupation and cannot be forbidden to work what the legislature decides is an excessive number of hours, or to carry on the work under conditions which the legislature decides to be unhealthy.

There is also, I think, ground for the belief that substantial injustice is often suffered by employees in consequence of the custom of courts issuing temporary injunctions without notice to them and punishing them for contempt of court in instances where, as a matter of fact, they have no knowledge of any proceedings. Provision should be made that no injunction or temporary restraining order issue otherwise than on notice, except where irreparable injury would otherwise result, and in such case a hearing on the merits of the order should be had within a short fixed period, and if not then continued after hearing it should forthwith lapse. Decisions should be rendered immediately and the chance of delay minimized in every way.

The courts are to be highly commended and staunchly upheld when they set their faces against wrongdoing or tyranny by a majority, but they are to be blamed when they fail to recognize under a government like ours the deliberate judgment of the majority as to a matter of legitimate policy when duly expressed by the legislature. The people should not be permitted to pardon evil and slippish legislation on the theory that the court will set it right. They should be taught that the right way to get rid of a bad law is to have the legislature repeal it and not to have the courts by ingenious hair splitting nullify it.

People Themselves to Blame.

For many of the shortcomings of justice in our country our people as a whole are themselves to blame, and the judges and juries merely bear their share together with the public as a whole. It is discreditable to us as a people that there should be difficulty in convicting murderers or in bringing to justice men who as public servants have been guilty of corruption or who have profited by the corruption of public servants.

The huge wealth that has been accumulated by a few individuals of recent years, in what has amounted to a social and industrial revolution, has been as regards some of these individuals made possible only by improper use of the modern corporation. Corporations are necessary instruments of modern business. They have been permitted to become a menace largely because the governmental representatives of the people have worked slowly in providing for adequate control over them.

Real damage has been done by the manifold and conflicting interpretations of the interstate commerce law. Control over the great corporations doing interstate business can be effective only if it is vested with full power in an administrative department, a branch of the federal executive, carrying out a federal law. It can never be effective if a divided responsibility is left in both the states and the nation. It can be effective if left in the

hands of the courts to be decided by lawsuits.

The courts hold a place of peculiar and deserved sanctity under our form of government. Respect for the law is essential to the permanence of our institutions, and respect for the law is largely conditioned upon respect for the courts. But we must face the fact that there are wise and unwise judges, just as there are wise and unwise executives and legislators. When a president or governor behaves improperly or unwisely the remedy is easy, for his term is short. The same is true with the legislator, although not to the same degree. With a judge who, being human, is also likely to err, but whose tenure is for life, there is no similar way of holding him to responsibility. Under ordinary conditions the only forum of pressure to which he is in any way amenable are public opinion and the action of his fellow judges. It is the last which is most immediately effective and to which we should look for the reform of abuses.

Pure Food.

The pure food legislation has already worked a benefit difficult to overestimate.

Secret Service.

Last year an amendment was incorporated in the measure providing for the secret service which provided that there should be no detail from the secret service and no transfer therefrom. It is not too much to say that this amendment has been of benefit only, and could be of benefit only, to the criminal classes. The amendment in question was of benefit to no one excepting to criminals, and it seriously hampers the government in the detection of crime and the securing of justice. It prevents the promotion of employees in the secret service, and this further discourages good effort. In its present form the restriction operates only to the advantage of the criminal, of the wrongdoer.

The chief argument in favor of the provision was that the congressmen did not themselves wish to be investigated by secret service men. Very little of such investigation has been done in the past, but it is true that the work of the secret service agents was partly responsible for the indictment and conviction of a senator and a congressman for land frauds in Oregon. I do not believe that it is in the public interest to protect criminals in any branch of the public service, and exactly as we have again and again during the past seven years prosecuted and convicted such criminals who were in the executive branch of the government so in my belief we should be given ample means to prosecute them if found in the legislative branch. But if this is not considered desirable a special exception could be made in the law prohibiting the use of the secret service force in investigating members of the congress. It would be far better to do this than to do what actually was done and strive to prevent or at least to hamper effective action against criminals by the executive branch of the government.

Postal Savings Banks.

I again renew my recommendation for postal savings banks, for depositing savings with the security of the government behind them. The object is to encourage thrift and economy in the wage earner and person of moderate means. It is believed that in the aggregate vast sums of money would be brought into circulation through the instrumentality of the postal savings banks. Postal savings banks are now in operation in practically all the great civilized countries with the exception of the United States.

Parcel Post.

In my last annual message I commended the postmaster general's recommendation for an extension of the parcel post on the rural routes. The establishment of a local parcel post on rural routes would be to the mutual benefit of the farmer and the country storekeeper, and it is desirable that the routes, serving more than 15,000,000 people, should be utilized to the fullest practicable extent.

Education.

The share that the national government should take in the broad work of education has not received the attention and the care it rightly deserves. I earnestly recommend that this unfortunate state of affairs as regards the national educational office be remedied by adequate appropriations.

Census.

I strongly urge that the request of the director of the census in connection with the decennial work so soon to be begun be complied with and that the appointments to the census force be placed under the civil service law, waiving the geographical requirements as requested by the director of the census. The supervisors and enumerators should not be appointed under the civil service law for the reasons given by the director.

Public Health.

The dangers to public health from food adulteration and from many other sources, such as the menace to the physical, mental and moral development of children from child labor, should be met and overcome. This nation cannot afford to lag behind in the worldwide battle now being waged by all civilized people with the microscopic foes of mankind. The first legislative step to be taken is that for the concentration of the proper bureaus into one of the existing departments.

Statehood.

I advocate the immediate admission of New Mexico and Arizona as states. This should be done at the present session of the congress. The people of the two territories have made it evident by their votes that they will not come in as one state. The only alternative is to admit them as two, and I trust that this will be done without

The One Laxative Better Than Calomel

Does its work, yet leaves none of Calomel's after effects. When constipated, try Olive Tablets. Let them put you in better spirits—let them tone up the liver

Nine out of every ten people need laxatives. For constipation and sluggish livers are the unsuspected causes of a hundred different ills.

When your head aches, don't take headache powders. Most of such powders are harmful.

You should get at the cause of the headache. Dr. Edwards developed Olive Tablets through fifteen years of practice.

All his professional knowledge is crystallized in these tablets. Fifteen years he searched for something to give in place of calomel—

something that would not like it, yet something perfectly safe. The result is Olive Tablets.

One advantage is in their healing effect—the result of the olive oil in them.

Everyone knows how beneficial olive oil is. Yet they don't know what value it has as a laxative.

That's why we want you to try Olive Tablets.

Learn what a pleasant and prompt effect they have. Let them relieve you when you feel blue, nervous or dull. They tone the liver and clear the skin.

Dr. Edwards' Pleasant Olive Tablets

They accomplish results where others fail. You need but try them to know them.

Prove what they'll do for you. One at bed time makes you feel fine in the morning. They are pleasant to take—in the

form of sugar-coated tablets. They have no bad taste—do not gripe or cause any pain.

They are harmless, no matter how many you take. Get a package of your druggist today—15 tablets 10c, 45 for 25c; in packages.

THE OLIVE TABLET CO.,

Bourse, Philadelphia, Pa.

Foreign Affairs.

This nation's foreign policy is based on the theory that right must be done between nations precisely as between individuals, and in our actions for the last ten years we have in this matter proved our faith by our deeds. We have behaved and are behaving toward other nations as in private life an honorable man would behave toward his fellows.

Latin American Republics.

The commercial and material progress of the twenty Latin American republics is worthy of the careful attention of the congress. No other section of the world has shown a greater proportionate development of its foreign trade during the last ten years, and none other has more special claims on the interest of the United States.

Panama Canal.

The work on the Panama canal is being done with a speed, efficiency and entire devotion to duty which make it a model for all work of the kind. No task of such magnitude has ever before been undertaken by any nation, and no task of the kind has ever been better performed. The men on the isthmus, from Colonel Goethals and his fellow commissioners through the entire list of employees who are faithfully doing their duty, have won their right to the ungrudging respect and gratitude of the American people.

Ocean Mail Lines.

I again recommend the extension of the ocean mail act of 1891 so that satisfactory American ocean mail lines to South America, Asia, the Philippines and Australasia may be established. The creation of such steamship lines should be the natural corollary of the voyage of the battle fleet. It should precede the opening of the Panama canal.

The Philippines.

Real progress toward self government is being made in the Philippine Islands. The gathering of a Philippine legislative body and Philippine assembly marks a process absolutely new in Asia, not only as regards Asiatic colonies of European powers, but as regards Asiatic possessions of other Asiatic powers, and indeed, always excepting the striking and wonderful example afforded by the great empire of Japan, it opens an entirely new departure when compared with anything which has happened among Asiatic powers which are their own masters. We have given the Filipinos constitutional government, a government based upon justice, and we have shown that we have governed them for their good and not for our aggrandizement.

At the present time, as during the past ten years, the inexorable logic of facts shows that this government must be supplied by us and not by them. We must be wise and generous. We must help the Filipinos to master the difficult art of self control, which is simply another name for self government. But we cannot give them self government save in the sense of governing them so that gradually they may, if they are able, learn to govern themselves. No one can prophesy the exact date when it will be wise to consider independence as a fixed and definite policy.

Porto Rico.

I again recommend that American citizenship be conferred upon the people. (Continued on page 7, 5th col.)

PILES

"I have suffered with piles for thirty-six years. One year ago last April I began taking Cascarets for constipation. At the end of a week I noticed the piles began to disappear and at the end of six weeks they had not troubled me again. Cascarets have done wonders for me. I am entirely cured and feel like a new man." George Kryder, Napoleon, O.

SUCCESS AND HEALTH FOR MEN.

Health and strength long unknown to the debilitated man will quickly be felt surging in rich, red blood through the arteries and veins, causing life's greatest ambitions to be more keenly enjoyed, giving greater physical energy and brain power, while adding a certain personal magnetism responsible for success in these days of the survival of the fittest, and without which no man is capable of winning in the race of life, love and fortune. It has long been known that certain vegetable extracts, oils and vital mineral elements of nature, properly blended and mixed, may not only add years to the average life, but add that which is yet greater—the ability to succeed in all undertakings and to enjoy all of nature's great ambitions through the certain power of physical-mental magnetism. Those who lack these qualities of health and magnetism will be interested in knowing that a well-known medical expert and writer on medical topics gives in a recent article the secret which enabled him to obtain fees ranging from \$3000 to \$10,000 for treating the successful men of Wall street fame and millions. His exact words are: "The treatment is simple, thorough and correct. Intelligent and persistently followed, it results in most wonderful health, strength and will power. Leading druggists supply the main tinctures, extracts and essences in one ounce bottles ready to mix. Three ounces syrup sarsaparilla compound, mixed with one ounce compound fluid balmwort and stand two hours. Add one ounce compound essence cardiol in done ounce fincture cadomene (not cardamon) compound. Shake well, and take a teaspoonful after each meal and one at bedtime."

More Facts About Olive Oil

Cleanliness is a matter of especial interest to every consumer of food and medicine. In the manufacture of any oil, when the difficulties encountered are considered, the matter of cleanliness and absolutely sanitary conditions is of especial importance. There is no country where these matters are given so much consideration as ours, and no more conspicuous example could be selected than the home of "Sylmar" Brand Olive Oil. It was here a few months ago that an inspector after giving the entire plant and premises the closest scrutiny declared that in 20 years work as inspector this was the only plant of this kind with which he could find no fault. Such an example could not be found in any country importing Olive Oil here. On the contrary a little reflection would satisfy the thoughtful that anciently different contamination exists. We sell "Sylmar" Brand Olive Oil exclusively.

HOW THE "DRYS" RECEIVED NEWS

Hundreds of the "drys" thronged the Y. M. C. A. Auditorium Monday night where they received the returns, and it was a jammed crowd that received the news that Licking county had slid into the dry column. They were convinced that they would win in the hottest election and campaign that was ever held in the county, and as results showed their confidence was not misplaced.

Early in the evening the crowd commenced to gather, and by 7:30 o'clock every seat in the spacious room was occupied by the eager workers in the local option movement. The early returns were entirely satisfactory and even when the city went "wet" by the majority of 1573, they were not discouraged for the organization was confident that the county vote would be large enough to overcome the vote of Newark.

Chairman J. H. Miller of the Local Option committee, was in charge of the meeting, probably the most enthusiastic of any held during the entire campaign they had just waged. He received from the city and county precincts the vote as it was reported, and the results were read to the assembled crowd which cheered madly.

Try This For a Severe Cough.

Take a pint of Granulated Sugar, add a cup of water, stir and let boil just a moment. Put 2½ oz. of Pinex in a pint bottle and fill it up with the Granulated Sugar Syrup. Shake well and take a teaspoonful every one, two or three hours.

The prompt results from this simple home-made remedy will surprise you. It has been known to conquer a deep-seated cough in 24 hours. It is also an excellent thing for whooping cough, soreness of the lungs, bronchial troubles and other throat affections.

The proportion above suggested is enough to last a family a long time. It is equally effective for young or old, and has a very pleasant taste. Well cooked, it never spoils. It takes less than five minutes to prepare, and is very inexpensive. The 2½ oz. of Pinex should cost you about fifty cents, and the Granulated Sugar about four cents.

Pinex, as you probably know, is the most valuable concentrated compound of Norway White Pine Extract. It is rich in gualacal and other elements that make the ozone of the pine forests so effective in curing throat and lung diseases.

There are many pine tar and pine oil preparations, but none of these are to be compared with the real Pinex itself. All druggists have it or can get it for you without trouble if requested.

MIX IT AT HOME

Pine Harmless Prescription to Relieve Rheumatism and Kidney Trouble.

The following prescription for the cure of rheumatism and kidney and bladder troubles has no doubt been filled millions of times, viz: Fluid Extract Dandelion, one-half ounce; Compound Karsgen, one ounce; Compound Syrup Sarsaparilla, three ounces. These simple, harmless ingredients can be obtained at any good prescription pharmacy at little cost and are mixed by shaking well in a bottle.

The dose for adults is a teaspoonful after each meal and at bedtime, drinking a full tumblerful of water after each dose. It is said that this prescription is a positive remedy for kidney trouble and lame back, weak bladder and urinary difficulties, especially of the elderly people, and one of the best things to be used in rheumatic affections, relieving the aches and pains and reducing swellings.

A well known authority states that this mixture acts directly upon the eliminative tissues of the kidneys; cleanses these spongy organs and gives them power to sift and strain the poisonous waste matter and uric acid from the blood, which is the cause of all rheumatism.

If your back or sides ache and you suspect kidney trouble, it would be wise to try this for a few days.

When the returns, read by Rev. Mr. Bennett, were favorable.

During the wait between bulletins short speeches were made by Rev. Bennett, Rev. Sparks, Rev. Scholes, Judge Seward, B. F. McDonald, and Wesley Montgomery. All the speakers commented upon the fight in Licking county and what results were expected by them if the county should go dry. When the final returns were in showing that they had been victorious in the count the entire audience cheered in such a way that they could be heard for several blocks.

The death of Mrs. J. C. Miller, who was killed by a Panhandle train Monday morning while going to the polls to assist in one of the lunch rooms, was spoken of and the deepest sympathy was expressed for the bereaved family of the woman who lost her life while working for the cause she believed right. An offering was taken up for the purpose of buying a floral tribute to be placed on her grave and \$22 was realized.

POLICE COURT.

Upon a warrant sworn out by his sister Nettie, Fred Nagele was arrested last night at 7:20 o'clock by Officers McClure and Gorman and a charge of attempted burglary was placed against him.

Nagele and his sister live at the Post, Railroad street, with their aunt, Mrs. Yale, the proprietor of the place, and Sunday night, his sister says, is the time the attempted burglary took place. The place was closed and the doors locked, but when she went to a closet to secure some article, she was surprised to find her brother standing behind the door.

He pleaded with her not to inform his aunt, but in spite of his pleading she was told and an investigation was started. It was found that Nagele had entered through the cellar and had gotten into the room by knocking a piece of flooring loose. The case was not called in police court this morning.

OFFICER SHIVELY

Assaulted in West End and Badly Beaten—Assaultant Bound Over To Grand Jury.

Frank Rakay, a molder living in the west end was arrested Monday night charged with assaulting Officer Shively and Tuesday morning was bound over to the grand jury by Mayor Atherton in the sum of \$100.

The officer's story as told in police court was that he noticed them racing up and down the street, that he called to them but as no attention was paid to him he fired in the air. Later he was approached by three men, Rakay being one of them, and they asked him if he had shot at them. He replied that he had fired into the air in an effort to check their reckless driving. They then grabbed him and one got his knife. He drew his revolver and fired just as he was struck over the head with his own mace in the hands of Rakay. He fired a second shot but being dazed, missed his assailants. He says that the three men then pummed him and beat him repeatedly over the head. His gun was dropped in the struggle. After beating him almost into insensibility the three men then ran up the street and disappeared while the officer staggered into the restaurant and called Dr. Waymarch and the police patrol. The wagon, with Captain Bell and Officers McClure and Brown, made a hurry run to the scene and shortly afterwards

Rakay was arrested but his companions were not found. Shively's head was examined by the doctor upon his arrival and it was found necessary to take nine stitches to close the wound.

SCHOOL BOARD

Decides That Public Schools of City Shall Only Have One Week's Holiday Vacation.

The pupils and teachers in the Newark schools will only get a vacation of one week at Christmas time according to the board of education which met in regular session Monday night. The schools will be dismissed Wednesday, December 24 and will convene again Monday, January 1.

The session Monday night was unusually short though considerable business was transacted. F. F. Orr of Jacksonown and Miss Helen Roberts of Columbus were appointed as teachers in the high school. Miss Roberts has been teaching about a month on trial and has given complete satisfaction, while Mr. Orr has had several years experience and is well recommended.

The salary of Miss Anna Belle Seward, who has been substituting in music since the resignation of Prof. Nusbaum, was fixed at \$800. The matter of erecting iron gates in the vestibule entrance of the Riverside school was referred to the building committee with power to act. The matter of insuring the boilers at the high school was talked over and referred to the insurance committee.

Mrs. Ada L. Croom, the widely known proprietor of the Croom Hotel, Vaughn, Miss., says: "For several months I suffered with a severe cough, and consumption seemed to have its grip on me, when a friend recommended Dr. King's New Discovery. I began taking it, and three bottles affected a complete cure." The fame of this life-saving cough and cold remedy, and lung and throat healer is world wide. Sold at Frank D. Hall's drug store, 50c and \$1.00. Trial bottle free.

JURY DRAWN

To Determine Sanity of Ernest Terwilliger, Indicted for First Degree Murder—Begins Dec. 11

In the case of the State of Ohio vs. Ernest Terwilliger, a suggestion was made by defendant's counsel to the court that Terwilliger was insane and presented a certificate of a reputable physician to that effect, asking the court, under the statute, to impanel a jury to determine the question of the defendant's sanity.

The application having been made in accordance with the requirements of the law, there was nothing for the court to do but order a special jury drawn to determine the question of the defendant's sanity or insanity.

A jury was drawn by the clerk and sheriff and the case stands for trial on the 11th inst., to be tried upon that issue.

In case the jury determines that the defendant is insane, it will be the end of the criminal prosecution for the present. In case the jury determines that the prisoner is sane, the matter will go on and a charge against him contained in the indictment.

others they are not quite so expensive. They cannot be used for anything except the business for which they were intended, and might as well be heaped in a pile and burned. True, some of them may start restaurants, but the number in proportion to those put out of business will be small.

"While few of the proprietors have made any provisions in regard to future business, I have not the least doubt but that quite a number will start drug stores, and you know what that means."

SEARCH AND SEIZURE LAW.

The private individual may have his cellar as full of the various drinks as he desires, and on the assumption that "every man's house is his castle," he may defend his rights as he sees fit. The search and seizure law will be brought into use. It was difficult to obtain information on this law last evening, as many attorneys, having no use for the knowledge of the law, were not acquainted with its provisions. It is sufficient to say that the evidence must be strong before permission to search and to seize is given.

COUNTY LOSES \$80,000 TAXES.

Voting the county dry will decrease the tax collections in Licking county \$80,000, or about 28 per cent. The tax duplicate as now approximately \$300,000.00. The duplicate is about \$9,000,000. The general increase in the city taxes for the December collection over that of last year will be \$100,000. Of the loss revenue the city must make up 50 per cent of same. The general duplicate will be taxed two-tenths of the lost revenue to provide for the infirmity or poor fund. The other three-tenths will be a future consideration, and the manner of raising that part of the tax will probably be decided in the next legislature. Just what amount of liquor tax will be lost to the December collection depends on how many saloons will continue for the full 30 days' limit allowed by law.

664 VOTES LESS THAN ON NOV. 3.

The splendid weather of Monday had the effect of getting out a heavy vote on both sides. It was rather gloomy in the morning, but before noon it broke nice and clear and Old Sol made his appearance. On Nov. 3, 15,101 votes were cast in the presidential election. Monday there were 14,437 ballots cast, so that the vote fell 664 short of that of Nov. 3. Voters were out early and by 8 o'clock it was estimated that nearly one-half of the vote was in. Up until noon over two-thirds of the votes had been cast.

STATEMENT OF MR. J. H. MILLER

This victory is due to the sacrifice and loyalty on the part of those who helped in it, together with an organization that was carried out into the homes of the people of the county.

We take no delight in feeling that it is a victory over any class of men, but rather over a business that has been carried on in our midst. A majority of the people of the county have clearly expressed themselves upon the question, and say that they want the saloon out. We hope those whose business must be discontinued by this decisive victory will abide by the results, as we all abide by such expressions at any election. I think I ought to say that I know there is a deep determination

to stand on guard, in an organized way, to see that this victory is not turned into mockery by any one who may turn a deaf ear to it, and undertake to carry on any illegal business in the way of bootlegging and speak-easies. The saloon must go.

However, let me further say that I think plans will be laid to help those who now retire from the saloon business, into positions where they can carry on legitimate business. Where they show evidence of good faith and efficiency, we expect to help them into other lines of work. We have contended all along in this fight that we do not want to put men out of employment, but into employment.

I believe there will be such a marked improvement in the moral tone of our city and such a sustained business activity growing out of the results of yesterday's victory that the day will be looked back upon as one upon which we were emancipated from the slavery more far-reaching than the slavery of the South.

J. H. MILLER,
Chairman L. O. C.

AT "WET" HEADQUARTERS.

At the headquarters of the Business Men's Association and Taxpayers' league, where the "wets" received the returns, a crowd gathered early to await results. Like their opponents, they were confident of victory; but the returns from the country, especially the country villages, were discouraging.

The returns were received and read to the crowd, but by 8 o'clock the result seemed to auger defeat, and many men left for their homes. The final result was in by 9 o'clock and by 9:30 o'clock the rooms were closed.

HARDIN COUNTY IN DRY LIST.

Kenton, Dec. 8.—Hardin county voted dry under the Rose law yesterday by 2075 majority. The county seat, Kenton, went dry by 60 Twenty saloons, all in Kenton, are voted out. The total vote was 7600, whereas 8900 votes were cast at the presidential election.

There was no cheering or ringing of church bells on the part of the victors, on account of a resolution against the same by the dry association.

All-day prayer meeting of all the church women of Kenton was held at the First M. E. church. This election wipes out the famous South Side in Kenton, with its 10 saloons and gambling places.

LIQUOR ASSOCIATION.

Canton, Dec. 7.—Following the declaration of the Stark County Liquor and Trades Association that it would prosecute all violators of the Sunday closing law after Mayor Turnbull had refused to do so, three arrests were made Sunday by men said to be representing the liquor interests. August Hahn and Gus Hemricks pleaded guilty to the offense and were each fined \$25 and costs.

ELECTION WAS LEGAL.

Athens, Dec. 8.—Judge J. M. Wood, of the common pleas court, announced his decision yesterday afternoon in the Perry county local option contest, holding that the election held was legal, reversing Probate Judge Hymus, who ruled that it was held one day too soon. Copies of the decision were mailed to the Perry county authorities.

TAKES UP TEMPERANCE WORK.

Columbus, Dec. 8.—Rev. Dr. James Albert Patterson has resigned as pastor of the Central Presbyterian church to become New York State Superintendent of the Anti-Saloon League.

REVENUE LOSS IS \$1,782,000.

Fifty-six counties have voted "dry" up to date and eight "wet." Seventeen hundred and eighty-two saloons have been put out of business which means a loss in revenue of \$1,782,000. The dry district covers a wide and compact range of territory with only an occasional oasis.

In making up the reduction of state revenue caused by voting out the saloons a general state levy will have to be made which will be paid by the wet as well as the dry counties. Four hundred and forty-five saloons have

been "saved" to the liquor interests in the eight counties which have voted wet.

Of the remaining twenty-four counties in which elections have not been held a number will vote on the question before the first of the year. At the ratio at which the temperance wave is sweeping over the state, the end of the year will see 64 counties dry and more than 2,000 saloons out of business.

The option election results up to date, including the number of saloons involved and the majorities are:

SCIATICA LOSES ITS TERRORS

This Disease Is a Form of Neuralgia and Is Cured by the Remedy That Cures Other Forms.

Sciatica is neuralgia of the sciatic nerve and the treatment should be the same as for other forms of neuralgia. Lack of blood is almost always associated with neuralgia. Build up the blood, the impoverished nerves are fed and the neuralgic pains disappear. Absolute rest is the best aid to proper medical treatment.

So many severe cases of sciatica have been cured by Dr. Williams' Pink Pills that every sufferer is justified in giving the treatment a thorough trial. A recent cure is that of Mr. L. H. Smith, a farmer, of Bolivar, Ohio, who says:

"I think the sciatica in my case was caused by a heavy fall on my left side. I kept on working after the injury which had left my leg and hip very sore. The pains were severe and cutting and were worse whenever I climbed up and down stairs as I had to do every morning for I was employed as a night watchman at that time. The pains extended down to my foot and were constant unless I sat down and placed my leg out straight. Often I was forced to use crutches. The pains were so severe that I could not get more than two and one-half hours' sleep at a time."

"The doctor's medicine did not agree with my stomach and did not help me. I was under the care of different doctors for eight or ten months and then I gave up and started to use Dr. Williams' Pink Pills. I experienced relief sooner than I had hoped for and took several boxes of the pills. I am now in good health, the pains have entirely left me and I can use my leg without the slightest pain. I think Dr. Williams' Pink Pills have no equal and recommend them hoping I may be the cause of some sufferer getting relief."

If you have sciatica, or sciatic rheumatism, and the treatment you have taken proved of no benefit, it is time that you tried the remedy that has cured so many stubborn cases—Dr. Williams' Pink Pills.

These pills are sold by all druggists, or will be sent, postpaid, on receipt of price, 50 cents per box; six boxes, \$3.00, by the Dr. Williams' Medicine Company, Schenectady, N. Y.

PRESIDENT'S MESSAGE

(Continued from Page 2.)

Cuba.

In Cuba our occupancy will cease in about two months' time. The Cubans have in orderly manner elected their own governmental authorities, and the island will be turned over to them. Our occupancy on this occasion has lasted a little over two years, and Cuba has thrived and prospered under it. Our earnest hope and one desire is that the people of the island shall now govern themselves with justice, so that peace and order may be secure.

The Fleet's Reception.

I take this opportunity publicly to state my appreciation of the way in which in Japan, in Australia, in New Zealand and in all the states of South America the battle fleet has been received on its practice voyage around the world. The American government cannot too strongly express its appreciation of the abounding and generous hospitality shown our ships in every port they visited.

The Army.

As regards the army, I call attention to the fact that, while our junior officers and enlisted men stand very high, the present system of promotion by seniority results in bringing into the higher grades many men of mediocre capacity who have but a short time to serve. No man should regard it as his vested right to rise to the highest rank in the army any more than in any other profession.

The scope of retiring boards should be extended so that they could consider general unfitness to command for any cause in order to secure a far more rigid enforcement than at present in the elimination of officers for mental, physical or temperamental disabilities. But this plan is recommended only if the congress does not see fit to provide what in my judgment is far better—that is, for selection in promotion and for elimination for age.

Now that the organized militia, the national guard, has been incorporated with the army as a part of the national forces it behooves the government to do every reasonable thing in its power to perfect its efficiency.

A bill is now pending before the congress creating a number of extra officers in the army, which, if passed, as it ought to be, will enable more officers to be trained as instructors of national guard and assigned to that duty.

There should be legislation to provide a complete plan for organizing the great body of volunteers behind the regular army and national guard when war has come. While teams representing the United States won the rifle and revolver championships of the world against all comers in England this year, it is unfortunately true that the great body of our citizens shoot less and less as time goes on.

To meet this we should encourage rifle practice among schoolboys and indeed among all classes, as well as in the military services, by every means in our power.

The Navy.

I approve the recommendations of the general board for the increase of the navy, calling especial attention to the need of additional destroyers and colliers and, above all, of the four battleships. It is desirable to complete as soon as possible a squadron of eight battleships of the best existing type. The North Dakota, Delaware, Florida and Utah will form the first division of this squadron.

I most earnestly recommend that the general board be by law turned into a general staff. There is literally no excuse whatever for continuing the present bureau organization of the navy. The navy should be treated as a purely military organization, and everything should be subordinated to the one object of securing military efficiency. A system of promotion by merit, either by selection or by exclusion or by both processes, should be introduced.

Nothing better for the navy from every standpoint has ever occurred than the cruise of the battle fleet around the world. The improvement of the ships in every way has been extraordinary, and they have gained far more experience in battle tactics than they would have gained if they had stayed in the Atlantic waters. I do not believe that there is any other service in the world in which the average of character and efficiency in the enlisted men is as high as is now the case in our own. I believe that the same statement can be made as to our officers, taken as a whole, but there must be a reservation made in regard to those in the highest ranks and in regard to those who have just entered the service, because we do not now get full benefit from our excellent naval school at Annapolis.

The President urges preservation of the forests, the improvement of inland waterways and the placing of national parks adjacent to national forests under control of the forest service.

Would Mortgage the Farm.

A farmer on Rural Route 2, Empire, Ga., W. A. Floyd, by name, says: "Bucklen's Arnica Salve cures the two worst sores I ever saw; one on my hand and one on my leg. It is worth more than its weight in gold. I would not be without it if I had to mortgage the farm to get it." Only 25c at Frank D. Hall's drug store.

Anty Drudge on Early Rising.

Mrs. Worliard (winding alarm clock)—"I always set the alarm for 4 o'clock on Monday morning, so I can make an early start with my washing and get through before dark."

Anty Drudge—"Nonsense. Just you sleep three hours later, and then send to the grocer's for some Fels-Naptha soap, and do your washing the Fels-Naptha way. Your wash will be on the line before noon, cleaner and whiter than ever before."

In India the women still go down to the river banks and wash clothes by rubbing them over stones.

They are unprogressive, we say. But they are no farther behind the times than the American women who still boil clothes and hard-rub them on a washboard. The women of India don't weaken their clothes by boiling, at least.

The truly modern way of washing is the Fels-Naptha way. No boiling to weaken the fibre; no hard-rubbing to wear and tear. Work saved, time saved, fuel saved; clothes cleaner.

CENTENNIAL ANNIVERSARY

OF THE BIRTH OF ABRAHAM LINCOLN TO BE FITTINGLY OBSERVED.

Orders Issued From National Headquarters of G. A. R.—Will Be Observed by Lemert Post.

Editor Advocate: Will you please publish the following extracts from a recent order from G. A. R. headquarters:

Headquarters G. A. R., Red Bank, N. J., Nov. 9, 1908. Pursuant to the recommendation of the committee appointed to take into consideration the fitting celebration of the 100th anniversary of the birth of Abraham Lincoln, it is recommended:

1. That every Grand Army Post shall recognize the day in some fitting manner, either in special meeting, or in attendance as a body where a public celebration is held.

That the co-operation of the Women's Relief Corps, Sons and Daughters of Veterans and all other patriotic societies be invited to participate in all functions arranged for this occasion.

That all departments of education controlling colleges and universities, and public, private and parochial schools be requested to arrange for the recognition of the day with appropriate and special exercises with a program similar to the following:

1. Keller's American Hymn.
2. Invocation: "Almighty Father, humbly we bow before Thee, our Creator, God and Preserver. We thank Thee for what faith makes real to us; for Thine Almighty power that created the heavens and the earth and all therein, and for the boundless love that environs thy children and moves them reverently to say 'our Father.' We thank Thee for the noble men under whose leadership this fair land was dedicated to freedom of thought, expression and action, and likewise for their successors who have given themselves to solving grave problems arising from new conditions. At this hour we would specially thank Thee, that in the time of the country's dire peril A MAN WAS SENT OF THEE, who was equal to the emergency. We pray, our Father, that these evidences

of Thy love and goodness and these examples of noble living and noble doing may inspire us all to live unselfishly and to do our duty as far as in us lies according to the precepts of thy Holy Word; and to Thee we will give all the honor and praise now and evermore. Amen."

3. Battle Hymn of the Republic.
4. Sketch of Abraham Lincoln.
5. Lincoln's Gettysburg Address.
6. Whittier's Centennial Hymn.
7. Extracts and Quotations from the writings and speeches of Lincoln. (By Selected Pupils.)

8. Star Spangled Banner.
9. Address (or Addresses) on the Life and Character of Lincoln.
10. America.
11. Benediction.

And it is recommended that the following (or its equivalent) be the order of exercises for all assemblies other than schools and colleges:

1. Music.
2. Invocation.
3. "America."
4. Vocal music.
5. Address (or Addresses) on the Life and Character of Lincoln.
6. "Star Spangled Banner."
7. Gettysburg Address.
8. "Nearer, My God to Thee."
9. Doxology.
10. Benediction.

That the clergy be requested to hold special services in their churches, synagogues and Sunday schools on the Sunday preceding February 12, 1909. Department commanders are urged to see that this order is duly promulgated through the press.

HENRY M. NEVINS,
Com-in-Chief G. A. R.

Official:
FRANK O. COLE, Adgt. Genl.

At the meeting of Lemert Post, G. A. R. last Sunday afternoon, Commanders C. H. Kibler, Frank C. King, M. O. Nash, G. W. Chase and David Davis were appointed a committee to make all necessary arrangements for carrying this order into effect; and it is hoped and believed that they will be favored with the hearty co-operation and assistance of all our patriotic citizens in securing a proper observance of the centennial birthday of the great President to whom we owe the preservation of our government, and whose name we all hold in the highest honor and reverence.
